Abstract   Members present: Kenneth, Quentin & Vestin

1 New Plan, Big Plan

We have a new direction for the ShinyApp suggested by Kenneth. The goal is to create an interactive map of the bus stops, close to one of the TPG. We will add more information like the bus paths. The aim will be to highlight areas where there might be too many bus stops. All the details can be found here.

2 Ressources

- Columns aggregation
- Geocomputation with R
- Making maps with R
- OpenStreetMap

3 Next steps

1. Form teams
2. Improve and validate the plan
3. Begin with conceptualization
